Career Objective

Motivated backend developer with a strong passion for crafting efficient and scalable software solutions. Eager to leverage my technical skills in a collaborative environment, where I can contribute to the development of high-quality code, enhance user experiences, and drive innovation. Committed to continuous learning and professional growth to support the success of a dynamic development team.

Skills

- JAVA
 - Python
 - HTML 5, CSS 3
 - Javascript
 - JDBC
 - JAX-RS
 - Tailwind CSS
 - MySQL
-

Projects

Two Step Authentication

- Created a **JAVA** backend to send OTP to phone numbers using Twilio and updated it in the database using **JDBC** and **MySQL**.
- Developed a **REST API** using **JAX-RS** to authenticate the entered phone number and OTP and remove the OTP from the database. Tested the API using **Postman**.

Online Quiz Application

- Developed a dynamic Online Quiz Application using **Java** and **JavaFX**, featuring a responsive **GUI**, real-time scoring, and seamless **MySQL** integration.
 - Implemented a modular architecture for easy extensibility, demonstrating proficiency in **Java** programming, **GUI** development, and database management.
-

Education

**Bachelor of Technology
In Computer Science**
Lingaya's Vidyapeeth

2019-2023
